

## Sparta Academy Accreditation Program

In today's world, Sparta Systems' customers require IT resources that have in-depth TrackWise knowledge and a proven ability to meet their TrackWise needs. As part of the Sparta Academy Accreditation Program, Sparta Systems offers a variety of accreditation opportunities to our customers' TrackWise administrators, collaborators and super users. These accreditations demonstrate your TrackWise expertise and validate your skillset, giving you a distinct advantage in the marketplace.

### Reasons to Earn Your Sparta Academy Accreditation

- Demonstrate credibility for your TrackWise expertise, which can be vital to any Quality Management career path, differentiating you as an expert in your field and industry.
- Accelerate and transform your career by being your organization's go-to resource for the latest releases and features, ensuring your quality teams can perform at peak productivity
- Improve productivity and processes by being in the know through ongoing training and exposure to industry-standardized quality workflows
- Drive TrackWise user adoption and dramatically increase the ROI of your organizations' Enterprise Quality Management Systems.

### The Accreditation Process

Sparta Academy offers accreditations by skill level and area of expertise. Each accreditation is achieved by:

- Attending the appropriate training courses
- Passing an online, virtually proctored accreditation exam\*

Sparta Academy students may attend training in Sparta's New Jersey & London classroom locations, at your organization's location, or for some classes via online instructor-led training.

*\* Student must have a passing score of 70% on the timed online exam. If a student does not pass the exam, the student is not eligible to sit for the exam until 30 calendar days have passed.*

### Get Started Today!

To enroll in the Sparta Academy Accreditation Program, please contact Sparta Academy at [training@spartasystems.com](mailto:training@spartasystems.com).

### TrackWise Core Accreditation

We recommend that all students start with the The TrackWise Core Accreditation, which is designed to ensure students have a strong working knowledge of the following how to install and configure TrackWise; how to migrate TrackWise configuration; how to write TrackWise reports; and how to use TrackWise from an end user perspective. See next page for additional accreditation offerings.

The following courses are required to complete the TrackWise Core Accreditation:

Curriculum
Introduction to TrackWise
Technical Fundamentals of TrackWise
Introduction to TrackWise Configuration & Administration
Intermediate TrackWise Configuration & Administration
Crystal Reports Design for TrackWise**
TrackWise QualityView**

\*\*Participants have the option to select one of the two reporting classes to complete their Core Accreditation.
